3Y0I Bouvet Island DXpedition News

The following was posted on the Rebel DX Group's FaceBook page on 3 November [edited]
<https://www.facebook.com/rebeldxgroup>:

Hi Rebel folks,

We are still pushing with the missing budget (24 300 USDs) to finalize the last payment for the vessel to make 3Y0I happen. So far (as an international team) we still cannot travel to South Africa due the COVID situation. Bouvet is not cancelled! All our equipment is ready there, waiting for us.

Time is running like crazy, also Antarctic summer will not wait for us so long. Please keep in mind that we will maybe need to reschedule this trip for the next season.

In the meantime, Dom, 3Z9DX, received his Fijian government travel permit to go back to the Pacific Rebel Base as a backup plan. There is three different DXCC's around: 3D2/C Conway, 3D2/R Rotuma, 3D2 Fiji and several IOTAs including some very rare groups. Unfortunately, cyclone season starts from November to March... so all looks very difficult and hard from logistic point of view. Let us see what happens soon.

African DX

Contacts with stations on the African continent count towards the SARL's All Africa Award (www.sarl.org.za/public/awards/awards.asp)

South Sudan, Z8. Sigfrido, IW9FMD is a member of the United Nations Mission in South Sudan and has been active again as Z81S since early November. Activity is limited to his spare time and the length of his stay is not known. QSL direct to IT9YVO.

Djibouti, J2. Rene, DL2JRM will be active as J28XX. Activity is on 80 to 10 meters using CW and SSB. QSL to home call.

Malawi, 7Q. Operators from the Russian Robinson Club (RRC), who were expected to be active now as 7Q7RU near Embangweni, Malawi, are currently stuck in Nairobi, Kenya (since the 5th) and are having some visa issues. They may be there for a few more days until they resolve this issue (they will know more Monday). In the meantime, they may try to hastily arrange a temporary 5Z4/ license.

If the team finally goes to Malawi, activity will be on 160, 80, 60, 40, 30, 20, 17, 15, 12, 10, 6 and 2 metres (with a focus on 160/80 m) and 70 cm using CW, SSB, FT8 and Satellites. QSL via R7AL, LoTW or ClubLog's OQRS. For more details and updates, see <https://dxpedition.wixsite.com/7q7ru>

Last Minute Update (8 November): Two operators of the 7Q7RU team now have visas. Others are expected, perhaps even today. There are basically no air tickets to Malawi. None at all. Land borders are closed. The next flight will be on Friday 13 November. Four return tickets were purchased. However, a fifth ticket was purchased for one team member for tomorrow evening, 9 November. The ticket is expensive with a difficult route through Tanzania, leaving the transit zone and claiming luggage. So, all is going well, 7Q7RU could be on the air perhaps as early as 10 November.

Added Notes: The RRC team announced this past week, the "MALAWI 2020 7Q7RU" plaque. This plaque is issued for contacts with the Russian Team 7Q7RU. To get this plaque you need to work 3 QSOs with 7Q7RU between 7 and 19 November 2020. Plaque's size 200 x 250 mm. Plaque's fee 44 USDs or 39 EURs. Payment is via PayPal (VershkovKN@gmail.com). The fee includes shipping by air mail.

The RRC team also announced the "7Q7RU Band-Slot Challenge". The purpose of this competition is working 7Q7RU on as many different bands and modes as possible based on ClubLog scores. TOP TEN stations will win a special plaque sponsored by team members and shipped from Russia worldwide. The top 10 radio operators that fulfil the plaque's requirements first, will receive a special plaque free of charge starting with number 001 to 010.

All logs for checking will be uploaded to ClubLog service. Questions and/or applications free form should be sent to RW3DD (VershkovKN@gmail.com). For more info or to see the plaque, go to <http://www.dxwanted.net/index.php/plaques/other/603-malawi-2020-7q7ru>

Mali, TZ. Ulmar, DK1CE is expected to be back to Bamako, Mali in mid-November and be active as TZ1CE from the QTH of Jeff, TZ4AM for a month. He plans to be active "close to full time" on 160 to 10 metres CW, SSB and FT8. QSL via DK1CE (direct or bureau); he does not use LoTW.

African Islands

African Italy, IH. Raffaele, IH9YMC, will be active from Pantelleria Island (AF-018, WW Loc. JM56XT), African Italy, during the CQ WW DX CW Contest (28 and 29 November) as a Single-Op/Single-Band (??m) entry. QSL via LoTW or eQSL.

Operating Tip

Contest Playbooks - The big multi-op stations have them, and you could too - a "playbook" for each contest. When a guest operator arrives at a station, they need a crash course in everything related to a weekend's operation: equipment, policies, propagation, strategy and so on. Stations hosting guest operators often supply this information in the form of a handbook or playbook that can be read and more importantly, referenced during the contest weekend. The document also serves as a repository of information learned about operating in that contest from that location, subject to revision after each contest. Every station could benefit from such a document, to note such things as unusual paths to multipliers, reminders to check skew paths and other things that may get forgotten by the next contest.
